iClear Export / Import Interface

Enter Data Once

Transmits any posted bill electronically through iClear.

iClear:

Features

- Enter bills tracked by iClear clients into Perfect Practice[®] once.
- The Perfect Practice[®] iClear export interface conveniently creates an .xml file to package relevant billing information, which can be uploaded into the proprietary iClear Invoice Express software program. It can then be transmitted securely over the Internet to The First American Corporation.
- The iClear interface installation creates a new case management questionnaire and activity codes for you to track your billing costs and fees. The questionnaire can be customized to pull information from existing case management fields, eliminating double entry.
- Receive a clear, easy-to-use resource kit, which includes an HTML-based help utility and step-by-step flash-based movies.
- Help movies walk you through everything from installation to day-to-day operation of your new interface.
- Available by monthly subscription or as one-time full license purchase.

NOTE: In order for any of the listed interfaces to execute properly, a user's system components must meet the indicated requirements:

Operating System: *Windows 2000 or XP Advantage Drivers on Server and Workstation*
