Where does the time go?

Let Perfect Practice® Scheduler manage it for you

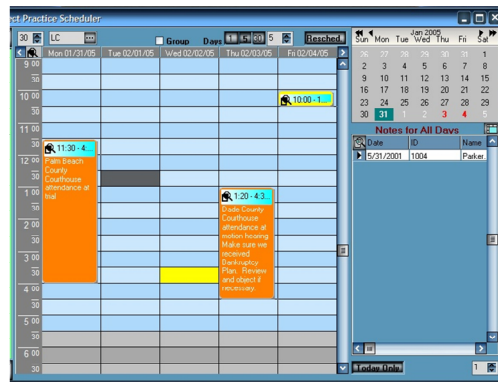

The Perfect Practice® Scheduler is a calendar and docket control program designed specifically for law firms.

Definable rules based deadline tracking. Entries can be linked to a specific case. View individual or group items. Privacy feature for personal appointments. Search for open time slots.

User defined default screen views. Daily, weekly, monthly views. Variety of printable reports.

Change history tracking. All entries are archived when finished or cancelled.

Outlook synchronization interface. Synchronize with PDAs via Outlook.

Synergistic Integration streamlines the data entry process. This minimizes the amount of data entry required and maximizes accuracy of information.

Perfect Practice® has a tight multi-level security scheme to keep prying eyes from seeing what they shouldn't. Security can be applied to login, individual program screens, even down to individual screen components.

Packed with features, based on years of input from existing clients, Perfect Practice® offers a field-tested solution for successful law practice management.
